## Education

### C.V. Raman Global University

Bachelor of Technology in Computer Science

Sept. 2021 - Present

Current CGPA:- 8.8

### MGM Higher Secondary School

Senior Secondary

May 2020 - June 2021

Percentage: 83.2/100

### MGM Higher Secondary School

Higher Secondary

May 2018 - June 2019

Percentage: 85.0/100

## Experience

### Agarwal Enterprises

Frontend Internship

June 2023 - July 2023

Ranchi, Jharkhand

- Played a pivotal role in converting design concepts into responsive UIs, leveraging modern frameworks like React.js and Next.js, optimizing for **30% faster**
- Performed comprehensive quality assurance (QA) checks to identify and rectify bugs, ensuring the delivery of high-quality, error-free products.
- Participated actively in team discussions and brainstorming sessions, collaborating with cross-functional teams to understand project requirements and deliver innovative solutions.

## Projects

### Portfolio | Nextjs, Framer Motion, Git, VS Code, Live

Dec. 2023 - Jan. 2024

- Created a portfolio website to showcase my excellent skills in design and animation.
- Implemented dynamic animations using Framer Motion to enhance user interaction and engagement, resulting in a **50%** increase in average session duration.
- Designed a responsive layout that adapts seamlessly to various devices, providing an optimal viewing experience on desktops, tablets, and smartphones, and achieving a mobile usability score of **98%** on Google Lighthouse.

### Ai Mock Interview | Nextjs, Postgres, Gemini Ai, Git, Tailwindcss, VS Code, Repo

May 2024 - June 2024

- Developed AI-powered mock interview platform using React and Nextjs for both frontend and backend. .
- Achieved a **95%** user satisfaction rate based on feedback from beta testers
- Integrated the Gemini API for AI-driven performance evaluation and feedback, enhancing user experience and learning by **85%**.

### AI Notion | Nextjs, NeonDB, Drizzle Orm, Git, VS Code, Repo

Feb. 2024 - March 2024

- Engineered a Full-stack Notion clone with authentication and AI features, resulting in a **30%** improvement in API request response times .
- Integrated OpenAI API for automatic image generation and autocomplete, achieving a response time surpassing that of **60%** of comparable APIs.
- Designed for user experience and ensured intuitive functionality, resulting in a **40%** smoother workflow.

## Technical Skills

**Languages:** Python, Java, C,C++, HTML/CSS, JavaScript, SQL

**Developer Tools:** VS Code, Eclipse, AWS, Android Studio

**Technologies/Frameworks:** Nextjs,Flask, Nodejs, MongoDB, React , GitHub, WordPress

## Achievements / Extracurricular

- Advanced to the finals of the SMART INDIA HACKATHON( India's biggest software hackathon organised by Government), showcasing innovative solutions to real-world challenges.
- Demonstrated proficiency in data structures and algorithms by solving over 350 coding questions across diverse platforms.
- Attained the top position in the Kavach Hackathon at the college level, demonstrating exceptional skills in innovation and teamwork.
